Subject: RE: Requests

Sure, I can put together a few slides on the C&D Measurement work and single family home LCA, and I will look at the GBI's responses.

Subject: Requests

Hi Ksenija,

To assist with Steve Smith's request, will you be able to provide me with a few slides and talking points on the C&D measurement work and the single family home LCA by COB tomorrow? I'd like to send him the material by Thursday. I'll be pulling together some existing material on the SMM Strategic Plan/FY 17 outlook for our Built Environment work.

Also, there's the separate request from Susan Gitlin re: the GBI comments. Please let me know if you view any of GBI's responses to our comments as "deficient" by 12pm Monday so we can discuss if needed and provide Susan with our thoughts by COB Monday, per her request.

I know you'll be connecting with Chris on what needs to be done to fill in any gaps in citations for tire crumb as well. We can talk this morning at our tire crumb general.
